Join us at the 2nd ESUN Course in Rome

Are you looking for an update in the field of neurogenic detrusor overactivity and overactive bladder? Do you appreciate a hands-on approach and applicable recommendations from Europe's top experts? Are you an experienced practising nurse specialist who treats these patients and teaches other health care professionals to treat them?

If so, you will most certainly want to join us at the 2nd ESUN Course in Rome, 4-5 November 2016. This course combines all the best features of an educational event – interaction, group work, latest updates and established evidence-based recommendations. We have invited renowned experts in the field, from a theoretical and practical point of view.

The preliminary programme consist of the following modules:

Module 1 - The physiology of bladder control	<i>C.R. Chapple, Sheffield, UK</i>
Module 2 - Disorders of the lower urinary tract	<i>B.F.M. Blok, Rotterdam, NL</i>
Module 3 - Pathophysiology of OAB symptoms	<i>C.R. Chapple, Sheffield, UK</i>
Module 4 - The impact of OAB on daily living	<i>W. Naish, Croydon, UK</i>
Module 5 - Diagnosis of OAB and neurogenic detrusor overactivity	<i>E. Finazzi Agrò, Rome, IT</i>
Module 6 - Management of neurogenic OAB	<i>L. Van De Bilt, Eindhoven, NL</i>
Module 7 - Management of neurogenic detrusor overactivity	<i>G. Del Popolo, Florence, IT</i>
Module 8 - Group work	

Registration fee for the full course is €100 for EAUN members and €130 for non-EAUN members.

The EAUN covers your hotel arrangement for one night and reimburses your flight or train ticket.

Please send an email to eaun@uroweb.org before 27 June to receive an application form, the application deadline is 1 July 2016. A selection will take place based on experience, work environment and educational background. For more info please visit eaun.uroweb.org

We are looking forward to receiving your application!

Stefano Terzoni
EAUN Chair
