Поштовани,

Са задовољством Вас обавештавам да ми је част да прихватим Вашу понуду и будем председник Почасног одбора VI Националног Конгреса са међународним учешћем. Такође, било би ми задовољство да отворим Конгрес, али ће моји сарадници још једном потврдити присуство како се отварање Конгреса буде приближавало.

Хвала Вам за књигу, приметно је Ваше ангажовање око организације Конгреса и веома се радујем будућој сарадњи.

С поштовањем,

Поштовани,

У вези са вашом молбом од 6. марта 2019. године, којом сте тражили да Министарство здравља Републике Србије прихвати покровитељство 6. Конгреса УМСТ КЦС „Сестринство“ под називом „Историјат сестринства Републике Србије“, који ће се одржати од 23. до 25. септембра 2019. године у Београду, обавештавамо вас о следећем:

Министарство здравља Републике Србије прихвата да буде покровитељ 6. Конгреса УМСТ КЦС „Сестринство“ под називом „Историјат сестринства Републике Србије“.

Такође, Министарство здравља Републике Србије прихвата да буде наведено као покровитељ у свим публикацијама које су везане за наведени стручни скуп.

Ова сагласност не подразумева истовремено и сагласност да у Програму конгреса наведете да ће министар здравља отворити исти и поздравити учеснике.

О томе ко ће испред Министарства здравља Републике Србије отворити скуп и поздравити учеснике, обавестићемо вас накнадно.

Молимо Вас да по завршетку активности сачините писмени извештај и са Програмом и штампаним материјалима доставите Министарству здравља Републике Србије.

С поштовањем,

ДРЖАВНИ СЕКРЕТАР

On the way to the 6th nurses congress

BETWEEN THE PAST AND THE FUTURE

Dear colleagues,
collaborators and dear friends,

Welcome to the 6th International Nursing Congress dedicated to the History of Nursing in Serbia.

Our motto is the same: colors of recollection, scent of memories and spirit of development...It follows us all these years and mark on all former congresses. So shall it be in the future, witness to our roots, the time being and the future.

As somebody said: nurses are the largest positive power of the society. Nurses are the most numerous and the most important link in our health system and their status has to get better continually. A profession characterized by true humanity in the service of human health. As part of a team or independently we perform the most subtle nursing and patient care tasks. We are their reliable support at every opportunity, which is in the nature of our vocation and our name.

So it is today, so it will be tomorrow, so it was in the past when this country and its people fought against slavery, for a life worthy to man, for survival and freedom, writing down important dates of their history. At the time, monks, then known and unknown nurses, caregivers, midwives, volunteers, and whatever they were named, wrote glorious pages of the history of our profession, sharing the fate of the people and its army, the tragedy of the wounded and sick and the plague of epidemics. Then some of our heroines, some of our Florence Nightingales, our true models of all time, were born honoring the profession and shared the tragic fate of their patients.

The Congress gives us an opportunity to get back to the past, to learn about it, to spread the knowledge about roots and pioneering steps, tribulations, failures and ascents of our profession. So we do since our first congress in 2004, when we began to look at the history of our profession, and tried to

answer the question: when did organized forms of health care begin and who dealt it in the past?

Why are we doing this? Let's remind, all of us, what do we know about the profession to whom we belong? Since when does it exist? When did it sprout, how did it develop and grow? Who were the people who opted for this noble profession? What like were the first hospitals? How was the education then? What sacrifices did our predecessors make in the name of their vocation? Multiple questions require historical based and reliable answers. Unfortunately, we must admit that we do not have enough information and awareness of these beginnings, neither that they are sufficiently enriched and cherished through education.

Fortunately, our efforts didn't failed. As well as the last congresses and the gathering we attend inspire and give hope that things will slowly but surely change for better. Knowledge of our near and distant past are getting more subtle. At the same time, nurses' awareness grows and the engagement - by side of the strictly professional work - all supporting actions in the everyday work should be recorded, so that we can leave our testimony as a legacy to those who comes. Life and reality do not begin and end with us, with the unwritten rule that what has not been recorded, has not happened.

A valuable step forward in the knowledge of our past was made by the publication Stanka Koprivica Kovacevic's book "The History of Nursing in Serbia". So author's seven-year research effort was crowned, in the best way: the cooperation of our association and the publishing houses „Odrbrana“ and „Licej“ as co-publishers, perpetuating the significant development period of our profession „From monastery hospitals to the end of World War II“. To present and perpetuate our reality as a part of the world heritage and history of nursing, this book is translated in English and will be promoted during this gathering. Of course, new editions are in preparation to well-round and complete the story of nursing and to place everything in one.

With reason, we expect incentives and contribution not only from present colleagues, but also from our distinguished guests from other professions, our associate doctors, historians, journalists, representatives of humanitarian and other associations and organizations, foreigners...From our dear guests

we will about the development of nursing in Poland, England, Slovenia, Italy, Norway, Qatar, United Arab Emirates, Croatia, Republika Srpska...We will hear what kind of uniforms are or were current and we will promote our Nurses anthem in English as well. Therefore we have lot of reasons to be satisfied.

Thanks to our sponsors - the Ministry of Health of the Republic of Serbia, the Chamber of Nurses and Health Technicians and everyone who helped to make this event a success. We address our invitation and welcome to everyone who wish to enrich their knowledge, to make new acquaintances and friendships, to exchange experiences and contribute to the successful work of the Congress. Participation brings also the points and license extension.

Our message: Learning from the past turning to the present and the future.

On behalf of the organizers and hosts, I wish you a successful work and hope that the next three congress-days bring us new knowledge about our profession, but also that you enjoy the magic of our beautiful Belgrade.

Until next time. Good luck

Marija Galic

PROGRAM BOARD

Marija Galić, Gordana Kovačević, Ljiljana Đukić, Suzana Bogdanović, Mili-jana Matijević, Prof. dr Petar Bulat, Prof.dr Milenko Stojković Prof. dr Miloš Žarković, Prof. dr Ana Šijački, Prof. dr Siniša Pavlović, Prof. dr Svetozar Putnik
