13.00	Closing remarks
13.00 – 14.00	Lunch

Learning outcomes for ESUN course on Urinary Tract Infections

- List the risk factors for urinary tract infection in men and women who are catheter users
- Describe the treatment of urinary tract infections in men and women who are catheters users
- Summarise the best ways to prevent urinary tract infections in adults who are catheter users and urostomy patients
- Give examples of how to educate caregivers and patients to prevent urinary tract infections
- Outline an educational plan for preventing urinary tract infection in your own clinic
