

Improving efficiency within the robotic theatre

25 January 2023

20:00 – 21:00 CET (19:00 – 20:00 GMT)

Learning objectives

In this webinar you will learn:

- To identify the minimum requirements to set up a new robotic service and the challenges around this. This includes environmental factors as well as human factors.
- To learn from the experts, how to troubleshoot the expected and unexpected challenges that arise with a new robotic service.
- To explore the key factors for a sustainable and effective robotic service.
- To learn and explore how to manage the multifactorial issues that arise from developing and expanding a multi-speciality robotic service.

Programme

Moderators: A. Mohammed, London (GB)
M. Marchetti, London (GB)

20:00 – 20:05 Introduction

A. Mohammed, London (GB)

20:05 – 20:20 Challenges in implementing a robotic service: Developing world view

N.B. Seenappa, Bangalore (IN)

20:20 – 20:35 Creating a successful Robotic Theatre Team

P. Nwangwu, London (GB)

20:35 – 20:50 Expanding your robotic service: A multi-speciality approach

C. So, London (GB)

20:50 – 21:00 Discussion with the panel
