|  | <input checked="" type="checkbox"/> <u>Neurourology</u>          |
|  | <input checked="" type="checkbox"/> <u>Erectile dysfunction</u>  |

**Other requirements**

*In the space below, please list any other requirements your Hospital / Institution has in providing the Fellowship programme*

We will welcome everybody who is interested in urology and urology nursing. We can offer a much specialised department. We are used to teach in English and we are familiar with an international atmosphere and developing international contacts. We expect you have considered what to do in Skejby and you will contact the department early for planning your education in details. We can offer you an interactive educational forum in a cross-sectional structure. We work in teams and nurses considers of equal importance and competences. We are looking forward to see you.

Best regards,

Bente Thoft  
Nurse of science  
Skejby Hospital, Urology Department K  
Chair EAUN

## Appendix 2

### **Description of Hospital / Institution**

*In no more than 300 words please provide a brief description of your Hospital / Institution indicating issues such as bed numbers, geographical location and population served. Please type this section.*

Skejby Hospital Skejby is a high specialised university hospital with modern buildings, advanced equipment and high qualified colleagues. We are in the top ten concerning patient satisfaction and we dedicate our work in offering safe and high quality in treatment and care. We act and perform in a very strengthen strategy to maintain the high standard and continue developing our concept for the benefit of our patient.

Skejby Sygehus covers an area with a background population around 1.2 million people. Basic evaluation and surgery are placed in 4 satellites in the area and high specialised functions is at the moment placed at two sites where Skejby Hospital is one of them.

Skejby Hospital is a part of the university and we have obligations to research and educate our colleagues. Besides general obligations to health care we have a research unit at our disposal, which provide service to nurses, PhD-students, bachelor, doctors and the industry. If you visit us during a research-period we can also offer you on-line library service 4 days a week.

Urology Department has at its disposal around 30 beds and has 10,000 visits in the outpatient-clinic every year. We make advanced cancer-surgery, laparoscopic and robot surgery and kidney transplantation. Moreover we have a famous paediatric urology department with advanced surgery. Finally, our incontinence clinic has been giving lectures and arranged workshops during the last years at the EAUN-congress.

Urology-nursing is of very high priority in the department. We are well educated and enjoy high respect from our colleagues, which provides positive interest in our work and skills not only national but international as well. We have several nurses with special clinical educational skills such as: Stoma care, continence care, urodynamics, dietary, learning processes and palliative care. In case the above mentioned should have your interest, you will be more than welcome to apply for a fellow-ship by our department.
